

CrewProtect™ 100

THE ULTIMATE AIR DECONTAMINATION SYSTEM

The CrewProtect™ 100 packs a particulate and VOC smashing punch. Easy to install and maintain, its high-performance, low power draw design is exactly what your vehicles need to take health to the next level. The advanced filtration technology doesn't meet the standard; it raises the bar to a higher level.

CrewProtect™ 100

FEATURES

Protects against particulates, VOCs, and aerosols, which cause short and long-term health concerns.

Easy installation on in-service units with only two wires and a few screws, or on new apparatus through your chosen OEM or apparatus dealer.

Multi-stage cartridge system collects 99.95% of particles at 0.3 microns and removes a broad range of gaseous pollutants.

Made of steel and powder coated to withstand Harsh environments inside emergency vehicles, each unit is compact, rugged, and includes a three-year limited warranty.

Suitable for small to large firefighting apparatus and vehicles, and multiple units can be placed inside of a vehicle for improved filtration.

THE ULTIMATE AIR DECONTAMINATION SYSTEM

1 DELIBERATE DESIGN
Our unbeatable construction is designed to withstand even the harshest environments, ensuring reliable and durable performance.

2 FLEXIBLE POWER OPTIONS
Designed for small to large fire apparatus and vehicles, our 12-24 VDC unit provides flexibility for where and how it's installed.

3 LED FILTER LIFE INDICATOR
Stay on top of filter maintenance with our advanced filter life tracking, ensuring timely replacement and consistent air quality.

4 ADVANCED FILTRATION TECHNOLOGY
Our filtration technology combines HEPA filtration for particulates and molecular filtration for VOCs into a single air decontamination cartridge.

5 EXTENDED FILTER LIFE THROUGH DESIGN
The CrewProtect 100's replaceable pre-filter extends the life and expands the range of environments the unit can maintain performance in.

FilterTechnology

HEPA

- Particulates
- Mold Spores
- Aerosols
- Ash & Dust

MEDIA

- Formaldehyde
- Toluene
- PAHs
- PFAS
- Many VOCs

PRODUCT SPECIFICATIONS

WEIGHT

23 lbs
10.43 kg

SIZE

4.5" x 20" x 12"
11.43cm x 50.8cm x 30.48cm

MEDIA

HEPA
Sodium permanganate

APPLICATION

Medium to Large
Apparatus

FILTER LIFE INDICATOR

FILTRATION PERFORMANCE

AIRFLOW	PARTICLE EFFICIENCY	VOC EFFICIENCY
100/2.83	99.95%	95%
CFM/CMM	0.3 Microns	First Pass

OPERATING SPECIFICATION

Sound	Voltage	Power
62	12 or 24	2.5 / 1
dB	VDC	AMP
