7/8" Smooth Bore with Stainless Steel Valve

1.5" Fixed gpm with Stainless Steel Valve and Spinning Teeth

2.5" Fixed gpm with 10 Flow Choices

FIXED FLOW FIREGROUND TACTICS

SMOOTH BORE ATTACK

Engineered with a smooth, tapered waterway, TFT's smooth bore tips provide the stream quality, reach, and penetration that you have come to expect from a traditional smooth bore.

FSNYSTACK

TFT Vortex Option

With just a simple twist, the VORTEX moves from a hard hitting straight stream to a uniformly dispersed pattern without gating the valve and reducing the fire flow. Available in a tip only, with valve or with valve and grip. A complete range of smooth bore tips are offered separately.

FIXED GPM METRO SERIES

The METRO series of fixed gallonage nozzles is available in 1", 1.5" and 2.5" versions. Available in tip-only/ball shut-off configuration for break-apart operations or a one piece with a ball shut-off, and optional colored pistol grips and handle cover.
