

# Configuration Sheet

## Multi RC Monitor Wireless Operation

### Component Ordering

This sheet is intended to be used in parallel with the TFT catalog to aid in ordering the components for multiple monitor configurations.

When the RC monitor and Controller Radio & Antenna items are ordered at the same time, TFT personnel configure all items to work together.

Control up to ten unique TFT RC monitors with a single wireless operator station with display!

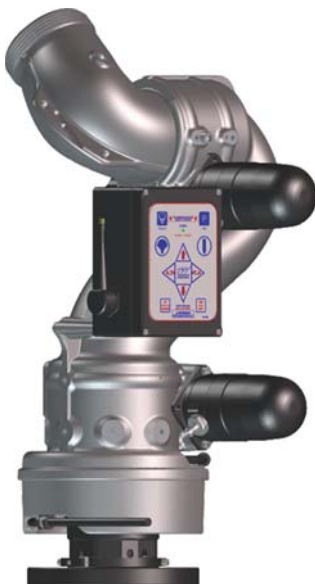

#### SELECT YOUR SYSTEM OPERATING FREQUENCY

- |   |   |  |
|---|---|--|
| <input type="checkbox"/> <b>900 MHz</b><br>YE-RF-RAD-9<br>YE-RF-900-D | <input type="checkbox"/> <b>2.4 GHz</b><br>YE-RF-RAD-24<br>YE-RF-2400-D | <input type="checkbox"/> NO OPERATING STATION                  |
|   |   | <input type="checkbox"/> EXTRA OPERATING STATION<br>(quantity) |

**NOTE:** A Wireless Operator Station (Handheld) must be ordered, but can be ordered at a later date. Additional Wireless Operator Stations with display can also be configured for multi monitor operation to be used as a backup or for operation from another location.

#### SELECT YOUR MONITOR TYPE & QUANTITY

- |   |   |  |
|---|---|--|
| <input type="checkbox"/> <b>MONSOON 2000</b><br>Y4-E**A | <input type="checkbox"/> <b>MONSOON 1250</b><br>Y4-E**A | <input type="checkbox"/> <b>TYPHOON</b><br>Y5-E**A |
| <input type="checkbox"/> <b>HURRICANE</b><br>XFIH-E**A  | <input type="checkbox"/> <b>TORNADO</b><br>Y2-E**A      |  |

**NOTE:** When the RC monitors, controllers with display, and Radio & Antenna items are ordered at the same time, TFT personnel will install Radio & Antenna. Each RC monitor will be assigned a number and name. This name can be chosen by the customer from a list of approved names.
